

# Division Business Meeting for Cryospheric Sciences (CR)

Room 5, Thursday, 12:15-13:15

## Agenda

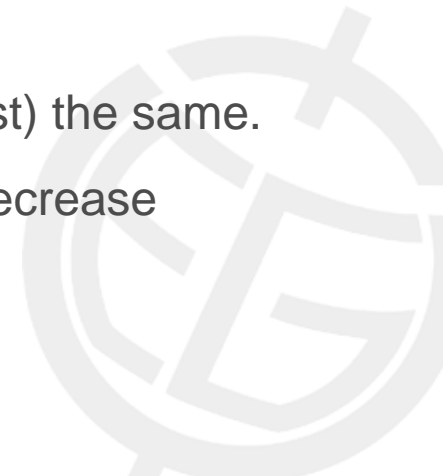

- Meeting statistics
- CR officers and secretaries, medal committee, vice president.
- Medals and awards
- Financial awards for young scientists
- Publications: The Cryosphere
- General discussions

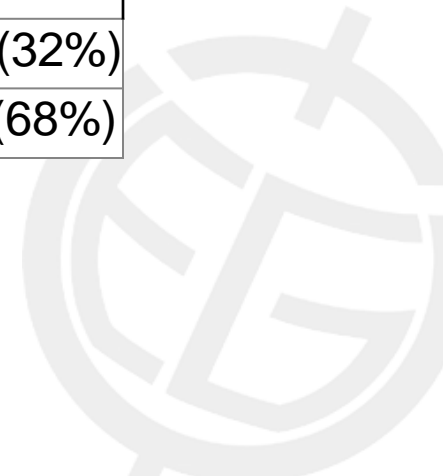

## CR Statistics

- 2011: 454 abstracts and 23 oral blocks
- 2010: 387 abstracts and 19 oral blocks.
- About 20% increase between 2010 and 2011
- (3% increase between 2009 and 2010)
- For the first time we are filling more than one lecture room for the whole week.
- Over the last two years number sessions has stayed (almost) the same.
- In total 13,329 abstract submission to EGU 2011, a slight decrease from the 14,809 abstracts submitted in 2010.

<b>Scheduled</b>	<b>Total: 473</b>	
Status		
Active:	454	(96%)
Withdrawn:	19	(4%)
Granted Supports		
None:	446	(94%)
KRTA:	3	(1%)
YSTA:	5	(1%)
Presentations		
Oral Programme:	153	(32%)
Poster Programme:	320	(68%)

## Division Structure

### Officers

President: G. Hilmar Gudmundsson (2009-2013)

Vice President: :

Outgoing: Marco Tedesco (2007-2011)

Incoming: Juerg Schweizer

Medal committee: Garry Clark (until 2012)

Outreach: Andi Kaeob

PC Chair: G. Hilmar Gudmundsson

EGU Journals: Jonathan L. Bamber

### Secretaries

Sea Ice: Peter Wadhams

Permafrost: Michael Krautblatter

Glaciers: Al Rasmussen

Ice Sheets: Frank Pattyn

Ice Caps: Jon Ove Hagen

Ice Shelves: Angelika Humbert

Snow: Martin Schneebeli

## EGU Medals and Awards

- Union medals
  - Alfred Wegener Medal (senior late-career scientists)
- Union awards
  - Arne Richter Award for Outstanding Young Scientists
  - Young Scientist Outstanding Poster Presentation
- Union travel awards
- Division medals
  - Louis Agassiz Medal ('mid-term' scientist)
  - Outstanding Young Scientist Award

Deadline for proposing candidates for 2012 is June 1<sup>st</sup>, 2012. (email to cryolist next week.)

## Division Outstanding Young Scientists Award

The Division Outstanding Young Scientist Award is given to Thomas Mölg for his fundamental contribution to the study of surface-mass balance processes on tropical glaciers, and for furthering our understanding of the links between tropical glaciers and global climate.

## Luis Agassiz Medal 2011

The Louis Agassiz Medal is awarded to Julian A. Dowdeswell for outstanding contributions to the study of polar ice masses and to the understanding of the processes and patterns of sedimentation in glacier-influenced marine environments.

Room 5, Today, 7-8pm

## Outstanding Student Poster (OSP) Award

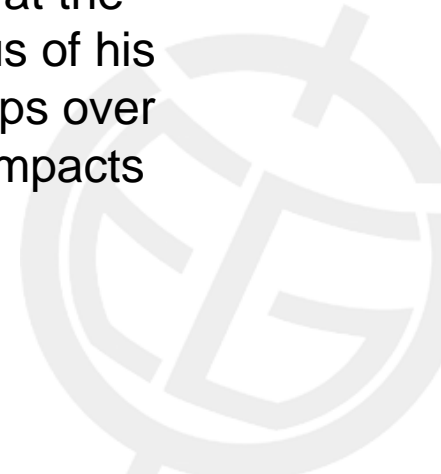

### Matthias Huss

for the poster entitled:

Large scatter and multidecadal fluctuations in the 20th century mass loss of 30 Alpine glaciers  
by Matthias Huss, Regine Hock, Andreas Bauder, and Martin Funk

Matthias Huss is a postdoc at the University of Fribourg, Switzerland, and has recently finished his PhD at the Swiss Federal Institute of Technology. The focus of his thesis was on glacier mass loss in the Swiss Alps over the last century and on models for calculating impacts of future glacier retreat.

## Support for young scientist

About 1000 applications for financial support, but only 500 were ranked by conveners!

It is one of the duties of conveners to rank applications by young scientist for financial support.

## EGU Financial Support

**Keith Runcorn Travel Award for Non-Europeans (KRTA):** This award includes a free registration. Depending on the decision of the Support Committee an additional financial support for the travel expenditures with a maximum of €500 could be granted as

**Young Scientist's Travel Award for Europeans (YSTA):** This award includes a free registration. Depending on the decision of the Support Committee an additional financial support for the travel expenditures with a maximum of €300 could be granted as

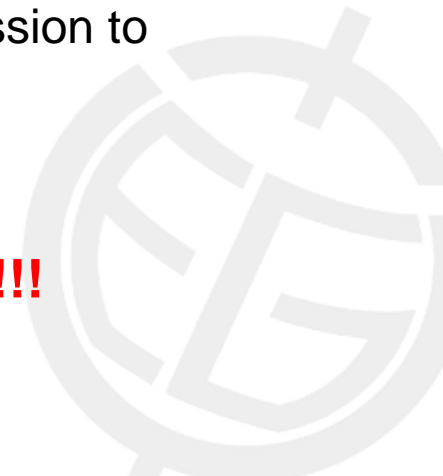

## The Cryosphere

- Open access journal
- ISI listed (impact factor expected sometime early this year).
- In 2010: 51 papers in TC, 118 papers in TCD  
269% overall growth.
- On average 13 days between submission to publication in TCD (median 9 days).

**'Open access' is the future of scientific publishing!!!**

	Price per Discussion Page	Description
<b>Category 1</b>	€16 net	LaTeX submissions using the <a href="#">Copernicus Publications LaTeX Package</a>
<b>Category 2</b>	€21 net	WORD submissions using the <a href="#">Copernicus Publications WORD Template</a>
<b>Category 3</b>	€34 net	LaTeX submissions causing higher expenditure of work due to any LaTeX style and/or difficulties with tables/figures
<b>Category 4</b>	€39 net	WORD submissions causing higher expenditure of work due to any WORD style and/or difficulties with tables/figures
<b>Copy-Editing</b> (spelling, grammar, sentence structure): €10 net / journal page, €3 net / discussion page		

## EGU 2011 issues, and plans for EGU 2012

- Problem: Session on ice-sheet and climate interaction was in a too small lecture hall this time.  
Solution: The session will be in room similar to room 5 (or larger) next year.
- Similar sessions on same day and in same room if possible?
- Poster sessions generally between 5-7pm?
- Please propose new sessions for 2012. All proposals will be accepted, but sessions will need >18 papers for an oral block.
